## ***DETAILED ACTION***

Claims 1-14 have been canceled. Therefore, claims 15-28 are currently pending in this application.

### **Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The terms "isomer" and "isomers" recited in claim 1, line 3, and are indefinite. By definition isomers are compounds having the same empirical formula and often with the same kinds of chemical bonds between atoms, but in which the atoms are arranged differently and this does not mean stereoisomers alone if that is what Applicant intends to claim. It is suggested to delete the term "isomer" and replace it with terms such as stereoisomer.

### **Objections**

Claims 16-28 are objected to for depending on a rejected base claim.
